Elderly: financial assistance to pay for home care

Verified 02 février 2021 - Directorate of Legal and Administrative Information (Prime Minister), National Solidarity Fund for Autonomy (CNSA)

If you have difficulty doing certain daily actions, you can get financial assistance (said *household help*) to pay a person (called *home help*) who will come to you to perform certain household tasks (help with meals, cleaning, laundry, ...). Financial assistance is granted under age and resource conditions. It can be assigned by your department or, failing that, by your pension fund. This aid cannot be combined with the Apa.
